### **DETAILED ACTION**

This action is in response to Applicant's amendments to claims received on 11/14/2006 and amendments to the drawings and specification received on 12/28/2006.

The drawings were received on 12/28/2006. These drawings are accepted.

### **Reasons for Allowance**

The following is an examiner's statement of reasons for allowance: The prior art reference to Carlson '628 fails to disclose the multiple sections of the inner edge of the blade. Furthermore, it would not have been obvious to modify the reference to include such limitations. The general nature in which the Carlson reference operates does not require the spaced and stepped portions of the inner blade and there is no motivation to modify the reference to include these structural limitations.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
